

SUSTAINABILITY STATEMENT

David Power Pty Ltd (David Power) is committed to promoting sustainability and understands the range of impacts construction and associated site activities has on communities. It is the policy of David Power and all subcontractors / suppliers appointed to undertake works and supply products / materials, to protect the environment through sound practices that reduce waste generation, minimise risk to the environment and preserve energy. We aim to follow and to promote good sustainability practice and to reduce the environmental impacts of all our activities.

David Power aims to undertake the following actions:

Sustainable Consumption and Production

- Specify and procure sustainable materials
- Identify opportunities for reuse and recycling of resources prior to commencing works
- Reduce waste to landfill - David Power requires that its workers use paper recycling bins and that all waste paper and cardboard is recycled
- Ensure that all electrical systems supplied and installed will achieve the best possible Energy Performance Rating
- Use environmentally friendly products in lunchroom and toilet areas

Climate Change and Energy

- Communicate and train workers to adopt energy efficient practices
- Regularly service and maintain plant and equipment to optimise low emission rates
- Use energy efficient lighting in offices
- Set photocopiers, printers and scanners to Black and White double sided as default
- Ensure continued roll out of electronic records document management system and online services initiatives to reduce the need for paper.
